## EXPERIENCE

Sept 2003 - Present      Freelance Artist  
www.spectralcalm.com  
Edmonton, AB

Sept 2003 - Present      Consultant  
Urban Systems Ltd.  
Edmonton, AB

- ★ Problem solved with clients to determine needs, worked with detailed descriptions and image requirements, managed deadlines, and adapted to continuous learning.
- ★ Built a portfolio of images for book and magazine covers, promotional and website materials, and logos designed to capture interest for products.
- ★ Provided illustrations for books, articles, and websites, combining pictures with text for storytelling and enhancement of experience.
- ★ Collaborated with large and small clients such as Wizards of the Coast, On Spec Magazine, Absolute XPress Publishing, and various small press publishers.
- ★ Volunteered with the E4C ArtStart program to provide art instruction for children.
- ★ Involved in multidisciplinary design work with planners, engineers, and landscape architects.
- ★ Drafted and reviewed engineering drawings for design and construction of land development and municipal rehabilitation projects.
- ★ Designed infrastructure projects throughout Alberta and British Columbia, involving roads, sewers, watermains, stormwater management facilities, and site servicing.
- ★ Coordinated teams for project delivery throughout the process of plan, design, build, and maintain; worked to the approval of various clients and government agencies.
- ★ Managed large scale projects, such as the Fort Saskatchewan Downtown Revitalization 2010-2011 (approximately \$7 million worth of construction).

## SKILLS

- ★ Skilled in various freehand drawing and painting mediums and styles.
- ★ Trained in drafting to communicate 2D designs for 3D construction at various scales.
- ★ Most experienced with Corel Graphics Suite and AutoCAD, also readily able to learn other graphics software and applications.
- ★ Practiced with Microsoft Office (Word, Excel, PowerPoint, Outlook) and internet applications.
- ★ Educated on thought processes for detailed design of urban infrastructure systems.
- ★ Knowledgeable in project management skills, organizing scope, team, schedule, tasks, and budget.
- ★ Well-versed in professional and technical written communications, correspondence, and file keeping; familiar with contract processes and administration.

## EDUCATION

B.ASc. - Civil Engineering (Co-op)  
University of Alberta, Edmonton, 2003

P.Eng. designation (APEGGA, 2007; APEGBC, 2009)
